

ANTON AMIR

FRONT-END WEB DEVELOPER

amiranton257@gmail.com | +20 101 902 0642

linkedin.com/in/anton-amir | github.com/toony10 | anton-web-portfolio.vercel.app

PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience building responsive, SEO-focused web applications using React, Next.js, and TypeScript. Delivers reusable UI components, optimized performance, and accessible user experiences across e-commerce and content platforms. Strong foundation in modern state management, API integration, and frontend architecture, with good working knowledge of Angular.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frameworks & Libraries: React, Next.js, Angular (good working knowledge), Redux Toolkit, Zustand, TanStack Query, Framer Motion

Styling & UI: Tailwind CSS, shadcn/ui, Material UI, Bootstrap, Responsive Design, RTL/LTR Support

Performance & Delivery: SEO, Lazy Loading, Caching Strategies, Reusable Component Libraries, REST API Integration

Backend Fundamentals: Node.js, Express, MongoDB

PROFESSIONAL EXPERIENCE

Front-End Developer, Inno Code | Cairo, Egypt | Jul 2025 - Present

- Developed and maintained 4+ production web applications with Next.js and React, improving page-load performance by up to 30%.
- Built and maintained a reusable component library that accelerated feature delivery and improved UI consistency across projects.
- Improved application performance through efficient frontend architecture, lazy loading, and Next.js optimization practices.

Part-Time Developer | Remote | Jul 2023 - Sep 2023

- Built an interactive movie-review platform with Next.js and Tailwind CSS.
- Implemented dynamic UI components and optimized API integration to improve user interactions.

SELECTED PROJECTS

Marca | Next.js, TypeScript

- Built a bilingual Arabic/English e-commerce storefront with responsive design and complete RTL/LTR support.
- Implemented product discovery, cart, wishlist, comparison, checkout, authentication, and profile workflows in a scalable frontend architecture.

Omlaty | Next.js, Tailwind CSS, shadcn/ui

- Developing the frontend for a coin-collector platform spanning e-commerce, an encyclopedia, community forum, blog, and academy.
- Built a scalable responsive UI and improved application performance using caching strategies and Next.js optimization.

Qutoof | Next.js, Tailwind CSS, shadcn/ui, Framer Motion

- Developed the frontend for an e-commerce platform, delivering a modern, responsive user experience.

Teacher Platform | Next.js, TypeScript, Tailwind CSS, shadcn/ui

- Developed a comprehensive e-learning platform with a student-facing site and admin dashboard for managing students, classes, courses, units, lessons, and subscriptions.
- Built responsive Next.js and TypeScript interfaces with Tailwind CSS and shadcn/ui, including course learning flows with videos, documents, and lesson-progress tracking.

EDUCATION & CERTIFICATION

Bachelor of Computer Science and Information Technology | EELU | Sep 2019 - Jul 2023

JavaScript Algorithms and Data Structures Masterclass, Udemy | Mar 2025
